

YOUR INNOVATIVE LAB SOLUTION

DxONE COMMAND CENTRAL driving productivity through remote management

● DxONE COMMAND CENTRAL PROVIDING LABORATORY STAFF WITH THESE BENEFITS

Maximize uptime

Receive immediate indication of an instrument problem out of the primary user's line of sight

Connect up to 18 instruments with five networked DxONE Command Central clients

Holistic view of connected instruments

Complete remote alert and navigation of laboratory instruments

Access instruments remotely to investigate patient and QC result errors (flags)

Achieve increased productivity by centralized monitoring and management of laboratory work processes

Consolidated monitoring of laboratory instruments (Beckman Coulter and third party)

WHAT ARE THE USERS SAYING? ●

"We are very happy with Command Central, especially in the late shifts when only one operator takes care of the whole track and all the analyzers connected"

~Dr. Obermeier, Germany

"This Command Central solution is very flexible and user-friendly"

~Dr. Surga, Douai Hospital, France

● FROM A SINGLE SEAT YOU CAN

Manage the whole lab out of hours, and support remote satellite labs by seeing what they see

Remotely control instruments for direct instrument validation

View all instrument status, alarms and result flags

Take control of Beckman and third party instruments

**BECKMAN
